B Background
Emalahleni Land Use Management Scheme (2010) was prepared and adopted in terms of Chapter II of the Town Planning and Township Ordinance No 15 of 1986 as amended. The eMalahleni Land Use Management Scheme, 2010, replaced the following town planning schemes:

- Witbank Town-planning Scheme, 1991;
- Ogies Town-planning Scheme;
- Kriel Town-planning Scheme, 1992; and
- Peri-Urban Areas Town-planning Scheme, 1975 (within the area of jurisdiction of Emalahleni Municipality; and
- Land Use Regulations for all townships established in terms of Act 4 of 1984 within the Area of jurisdiction of Emalahleni Municipality.

The municipality identified gaps within the adopted Land Use Management Scheme and therefore are required to amend the scheme. The development of the Land Use Management Scheme will draw its legislative foundation from the Spatial Planning and Land Use Management Act (Act 10 of 2013).

C Scope of Work

- Identify all existing land use rights allocated in terms of different legislation
- Develop an electronic register of land use rights
- The scheme must be prepared in terms of the Spatial Planning and Land Use Management Act.
- Preparation of conversion tables indicating changes from the old town planning schemes to the Emalahleni Scheme as a means to ensure that no one was unduly prejudiced by the introduction of a wall-to-wall scheme.
- Undertake an investigation on the suitable approaches for the incorporation of controls and regulations pertaining to mining activities within the municipality.
- Develop a detailed classification of land uses and land use categories. This could be done on the basis of the existing land use information or undertaking a detailed land use survey.
- Definitions should be reviewed taking into account the results of the above-mentioned exercise, and with an intention to improve clarity and certainty. Phrases such as “any purpose” as a form of use should be replaced with specific types of uses with clear definitions.
- Land use zones should be refined and new zones introduced. Again, this will depend on the results of the land use analysis.
- Table A of the current scheme should be refined through a detailed classification of land uses. The same applies to Table B.
- The scheme should provide for “home business” and include specific regulations that related to this. A policy on “home Business” is also required. Home business as a use was included in the old Witbank Town Planning Scheme.
Successful consultants will be required to update the Head of Spatial Planning on a monthly basis, on progress, time line, budget expenditures and any other matter that may be relevance to the successful completion of the project.

\[
Ps = \left( \frac{So}{Ms} \right) \times Ap
\]

Where
- \(Ps\) = Points scored for functionality by bid/proposal under consideration
- \(So\) = Total score of bid under consideration
- \(Ms\) = Maximum possible score
- \(Ap\) = % allocated for functionality

**Financial Proposals**

All bidders who have scored a minimum of 60% on functionality will be considered for further evaluation and all those who failed to achieve the minimum percentage will be disqualified.

The following formula will be used to calculate the percentage for price / financial proposals:

\[
Ps = \left( \frac{Pmin}{Pt} \right) \times Ap
\]

Where
- \(Ps\) = % scored for price bid / proposal under consideration
- \(Pm\) = lowest acceptable proposal / bid
- \(Pt\) = price of bid / proposal under consideration
- \(Ap\) = % allocated for price
**Calculation of points for Price**

The following formula will be used to convert percentages scored for functionality and price into points in terms of the evaluation criteria:

\[ P_s = 90 \{1 - (P_t - P_m / P_{min}) \} \]

Where

- \( P_s \) = Points scored for price of the bid / proposal under consideration
- \( P_t \) = Rand value of bid number under consideration
- \( P_m \) = Rand value of the lowest acceptable bid

**Calculation of total points scored**

The points scored for functionality and price will then be added to the points scored for preference and specific

CERTIFICATE OF INDEPENDENT BID DETERMINATION

1 This Municipal Bidding Document (MBD) must form part of all bids’ invited.

2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging). Collusive bidding is a per se prohibition meaning that it cannot be justified under any grounds.

3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
   a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution’s supply chain management system and or committed fraud or any other improper conduct in relation to such system.
   b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.

4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.

5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
